

Issues Facing Our Community: MENTAL HEALTH

OVERVIEW

People living in poverty lack financial resources to maintain basic living standards, have fewer educational and employment opportunities, are exposed to adverse living environments and are less able to access good quality health care. People who develop a mental disorder may not be able to work because of their illness. Others may be denied work opportunities or may lose their existing job because of a disorder.

SERVICES/ORGANIZATIONS

Local services that have programming or the ability to assist with mental health needs. Organizations are matched in areas where they do or *may* be able to assist.

THE COMMUNITY IMPACT COALITION

The coalition's strategic intent is to create long lasting impact in our community in the areas of education, income, and health by serving as a resource in identifying and meeting community needs, as well as being a resource to one another. Meetings take place once a month and are open to the community.
